

# GILBERT NETBALL THE BRAND

Power. Passion. Performance.

We proudly stand as a globally renowned netball brand, dedicated to upholding excellence in this beloved sport. Our mission revolves around fostering growth within the netball community, strengthening bonds, and empowering participants to elevate the game on all fronts. Our products continue to be embraced by elite netball players worldwide.

Gilbert Netball's legacy dates back to the 1990s, establishing itself as a prominent name in the global netball scene. Originally rooted in rugby, our exceptional ball engineering seamlessly transitioned to netball, offering unparalleled grip patterns that set us apart. This dedication to progress allows us to honor the legacy of James Gilbert, who set the bar over 190 years ago. Our new range of team wear, clothing, and equipment bears the endorsement of international netball players and teams, catering to the specific needs of our valued netball community, from players to officials and supporters alike.

We have listened to your feedback, both on and off the court, and made substantial improvements to our offerings, aligning them with the desires of consumers. Our commitment to the netball family at every level remains steadfast, working collaboratively to help all members achieve their aspirations.

## THE OFFICIAL SOUTH AFRICAN BALL RANGE

#### 26 August 2023

#### RE: SASN'S OFFICIAL ENDORSEMENT OF GILBERT SCHOOLS NETBALL RANGE

We hereby proudly reiterate our endorsement of the Gilbert Netball Range as the Official Ball of South African Schools Netball.

Gilbert recently extended their agreement with the INF as the official netball of the Netball World Cup. This gave us the confidence required to continue our partnership and seek areas to activate and grow together. We hereby introduce to you the new Official South African Schools Netball Range for 2023/24:

We hope that the below endorsement creates consistency in play and gradually builds teams and players towards the National Tournaments and teams in South Africa.

Kind Regards,

DI WOOLEY

PRESIDENT SOUTH AFRICAN SCHOOLS NETBALL (SASN)

# CHOOSING YOUR NETBALL

#### TRAINING VS MATCH BALL

Gilbert training netballs are made with cost and resilience in mind so they can withstand the rigours of multiple training sessions. They are made with a higher percentage of synthetic rubber rather than natural rubber which makes them a more robust ball, but also reduces the natural grip properties.

Gilbert match netballs on the other hand have been designed and produced with high performance in mind. Due to the performance nature, match balls are more expensive and therefore are often used in team run-throughs and matches rather than regular training sessions. Gilbert match netballs are made with more natural rubber which naturally enhances the grip, essential for match play.

#### **SIZING**

Size 4 = 8-10 years old Size 5 = 10+ years old

Regulation weight for a Size 5 netball = 460gms

#### **INFLATION**

Pull the ball into shape Moisten needle Inflate to recommended PSI After 5-7 days the balls will need to be topped up

#### **PRODUCT CARE**

Check the PSI before every use Avoid use on rough surfaces as wearing will vary depending on the surface Don't sit on inflated netballs

Rotate the balls in your kit to ensure even usage

# **CONTROL-A-BALLS**

## **DEVELOPING SKILLS**

#### Be aware of every situation and ready to react to anything

In the most testing games of netball, players need to be aware of every situation and be ready to react to anything their opponents may throw at them. In order to enhance their ever developing skills, players need new initiatives to test their reactions.

Made up of 5 balls, the Control-A-Balls each behave slightly differently. The balls included are: match, light, heavy, grip-less and unstable. Using these different balls at different times before using a standard ball challenges the player and advances their responsiveness in a match situation.

The Control-A-Balls are available in sets of size 5 so players have the opportunity to develop their skills with this innovative system. If you are wanting to enhance your performance when it counts, the Control-A-Balls are exactly what you need to take training to the next level this season.

#### **SPECIALITY TRAINING BALLS**

#### **CONTROL-A-BALLS**

#### TRAINING AID

Set of five balls to improve passing and catching. Each ball behaves differently to challenge the user during training.

#### Match Ball

Standard weight and grip pattern of the Spectra Ball.

#### **Heavy Ball**

Approximately 650g, the player must adapt to make accurate passes.

#### **Light Ball**

Approximately 300g, the player must adapt to make accurate passes.

#### **Gripless Ball**

Standard Spectra weight, but this ball is smooth, so in different conditions it can be very grippy or incredibly slippery.

#### **Unstable Ball**

Weighs 400g and then the user adds 280g of water. Within the pack there is a pump that allows water to be added to the inner bladder. This makes the ball completely unstable as the water moves within it.

Available in sizes 5 only. Available in Fluro Pink only.

# GILBERT PASS DEVELOPER WANTED

#### **PASS DEVELOPER**

#### **FEATURES:**

An overweight ball used for pass development.

Helps to strengthen the wrists.

Increases passing accuracy.

Available in size 5 only.

Available in Blue/Pink only.

#### **NOVELTY BALLS**

#### WE'VE GOT YOU COVERED.

As with all sports, the big bits of kit are always important, but the smaller items can be just as invaluable when it comes to honing your skills and abilities.

Whether you're a player looking for the perfect kit bag to get you and your stuff to and from matches and training sessions or a coach looking for equipment that will help your team develop their speed and agility, the Gilbert Netball training equipment range will have something for you.

We put just as much effort into producing our training equipment as we do our shoes, balls and clothing so that you can be sure every component of your game is at its best.

Flat-locked seams.

86% Polyester, 14% Elastane.
Available in sizes S-2XL
Colours: Black

# **GILBERT FLARE**NETBALLSHOES

We at Gilbert Netball are proud to introduce the new Evolution Shoe. Developed for international players the Evolution has been worn by Geva Mentor (Magpies & England), and Peace Proscovia (Sunshine Coast Lightning & Uganda) and should be on your wish list this year.

#### **FEATURES:**

The Evolution is specifically made for the female netball player, featuring a Prolast L - an improved last.

In addition to this, the shoe Fluid-Fit technology designed for additional support without the extra weight as well as Heel Wrap Technology involving an external TPU heel counter, providing improved support for an enhanced fit.

A huge part of the game is change of direction as well as jumping and landing with heavy impact. The Evolution shoes offer Hiapoli Pro to aid this. This removable sock-liner has a compression set less than 5% over time meaning the cushioning and fit do not change after wear and there is maximum cushioning and energy transfer back to the wearer. In addition to this, the Evolution shoe uses Gel-Tech Pro technology where Gel inserts are placed in the heel and forefoot for shock absorption.

The shoe also features smart impact absorption using antibacterial foam for the Impact Protection System (IPS) for even further shock absorption.

It is incredibly important for both indoor and outdoor netball, that athletes have shoes with maximum grip. The Evolution have been designed with a key pivot point near the toe of the shoe to aid change of direction, using Pivot1 with Xrtr-dura rubber compound for grip.

The Shoe also has the ability to return to its original form with every step through the use of Duo Litefoam plus with gel. This increases comfort and stability during play.

If you are looking for an elite level shoe with incredible technology combined with stylish design, look no further.

Available in sizes: UK 5-9

Colours: Coral/Silver & Blue/Silver
